

GR 102

	Application	Domestic
General	Design	Single stage pressure regulator with spring control & diaphragm with inbuilt pressure balance regulating unit to ensure a constant outlet pressure
	Connection Orientation	Inlet & Outlet connection at 90°
	Installation	Suitable for indoor installations, tamper proof and corrosion resistance
	Installation Position	Horizontal/Vertical
Flow	Capacity	6 m ³ /h
Pressure & Temperature	Inlet Pressure Range	25 mbar(g) - 350 mbar(g)
	Nominal Inlet Pressure	100 mbar
	Outlet Pressure Range	18.0 - 24.0 mbar
	Nominal Outlet Pressure	21 mbar
	Operating Temperature	0° C to 60° C
Connections	Inlet X Outlet	3/4" BSPT(F) X 3/4"BSPT (F) & 1" BSPT(F) X 1"BSPT (F)
Material	Casing	Pressure Die Casted Aluminium Alloy
Internals	Elastomers	Nitrile Rubber
	Internals	Aluminium & Delrin
Others	Suitable For	Natural Gas & LPG
	Filter	Optional
